

## Auburn University at Montgomery 2023-2024 Catalog Addendum

### College of Education Minor in STEM Teaching

**Description:** Auburn University at Montgomery offers a Minor in STEM Teaching. This minor is designed for students who wish to add an Alabama Class B Professional Educator teaching certification to their current major in Biology, Chemistry, Math, or Computer Science. The minor is only available to students whose major is Biology, Chemistry, Mathematics, or Computer Science. Upon successful completion of the minor, they will earn a teaching certification in the appropriate secondary area.

By taking certain courses, students may complete the minor without any extra coursework to your degree in science or math.

This minor is available for any student who wishes to add a foundation for teaching to their major outside of the College of Education. The first two courses – *Step 1* and *Step 2* – are excellent courses to help students determine if teaching is something they might wish to do in the future.

**Requirements:** To earn the minor, students must complete the 18 hours listed below and maintain a 2.5 GPA in these courses. Students must declare the minor with the Office of the Registrar to enroll in the courses. Most courses must be taken in the order listed (students with junior standing may be allowed to take certain courses concurrently).

Course	Hours	Semester Taken	Grade
FNDS 1010 Step 1	1		
FNDS 1020 Step 2	1		
SCED 3000 Knowing and Learning	3		
SCED 3050 Classroom Interactions	3		
SCED 3100 Project-Based Instruction*	3		
SCED 4944 Apprentice Teaching*	6		
SCED 4954 Secondary STEM Seminar*	1		

*\*Must be admitted to Professional Education to take these courses.*

*Note: This minor does not guarantee an Alabama Professional Educators' Class B Certificate unless you are on an approved pathway within the College of Sciences. Please contact your College of Sciences advisor or the College of Education Office of Student Services for information about teacher certification applications and requirements. You may email [eduadvising@aum.edu](mailto:eduadvising@aum.edu) at any time for assistance.*
