Central Advising
The Office of Central Advising advises Undeclared majors and all students in the College of Science and the College of Liberal Arts and Social Science with 57 or fewer earned hours. Students with 58 hours and above are assigned Faculty advisors. For the purpose of Orientation, ALL students in COS and CLASS will first be routed through a Central Advising representative. For students above 58 hours, the Central Advising representative will develop the basic materials for the new transfer student- including checking their transcript and articulated courses, creating the student’s electronic folder and AUM Plan of Study, then sending the student on to the Faculty advisor for advising and registration.

The College of Nursing and Health Sciences has a professional advising team for pre-nursing majors (students not yet admitted to the nursing program) and Faculty advisors for ALL students in the other degree programs.

**Pre-nursing students are not assigned an advisor, but are free to meet with any of the three available advisors. In order to assist in their ability to evenly distribute students, please direct all pre-nursing students to nursing@aum.edu. If a student is looking for information regarding the EARN program, you can direct them straight to Haley Adams.**
