Connecting to Campus WiFi

Connecting to Wireless Internet

Step 1: Click **Settings** on the Home Screen

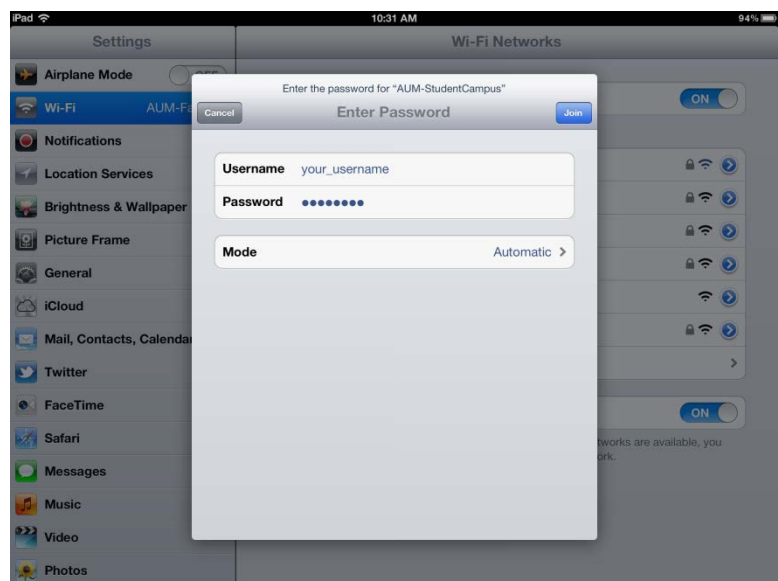

Step 2: Click **Wi-Fi** and then ensure the Wi-Fi is enabled. If it is not please switch it to **ON**

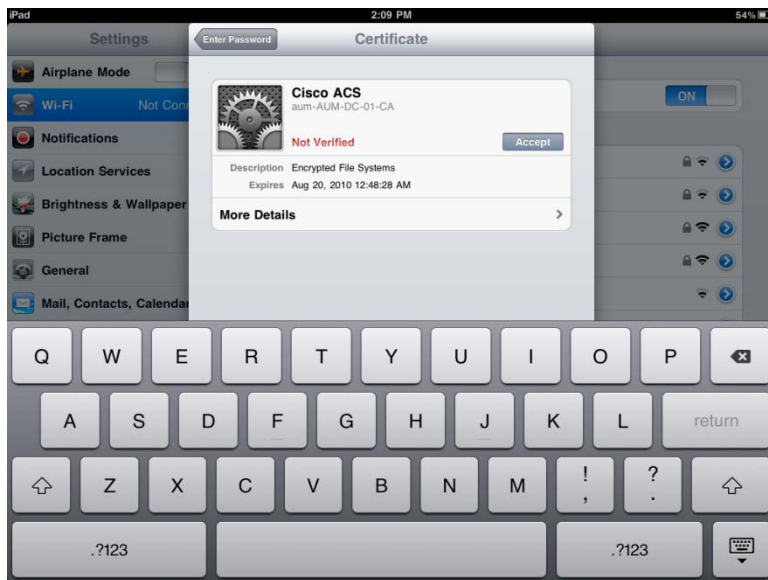

(These procedures are only for connecting to campus wireless, the procedures you follow at home will be based on what wireless router you own, you will most likely only have to enter your wireless key)

Step 3: Click **AUM-StudentCampus** to connect to the campus wireless

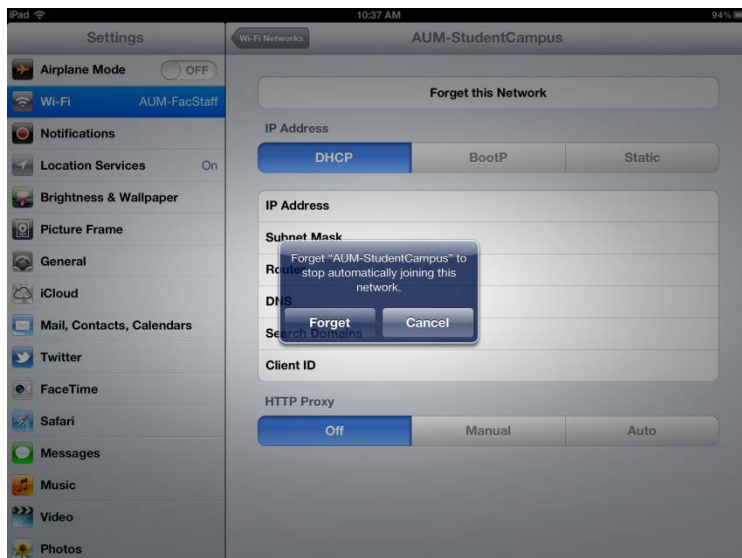

Step 4: Enter your **AUM Username** and **Password** and then click **Join**

Step 5: Accept the Certificate

Step 6: You are now connected to the AUM Campus Student wireless network

Forget a Network

If you ever no longer wish to connect to a wireless network you can follow these procedures. Click **Settings** and then click the **Wi-Fi** tab, click the **blue circle** to the far right of the network you wish to remove. On the advanced settings for this network click **Forget this Network** at the top. You will need to click **Forget** to perform this action.
