Computer Science Department
Master of Computer Science Degree Study Plan

Name:                                   S Number:       Phone #:
AUM email:                              Phone #:
Personal email:                        Phone #:

- Students with Bachelor’s degree in Computer Science from American Universities need see Graduate Advisor in the first semester of graduate studies.
- Maximum number of courses suggested for Fall, Spring and Summer semesters are: 3, 3, 2
- Pre-requisite(s) for the course has to be C or above before you can register that course

### 1. Full-time Status & Scholarship usage for International Students:

- Two (2) courses (minimum 6 credit hours) in Hybrid or Face-to-face sessions if it is student’s first semester are required to meet U.S. Immigration Department full-time student VISA requirement.
- In student’s final semester, immigration regulations can be met by selecting only one (1) course; however, it must be face-to-face or hybrid. A reduced course load form must be completed and returned to the Office of Global Initiatives.
- If you have $10,000 scholarship (for example), it will be used for 4 consecutive semesters, which means each semester you can use $2,500 scholarship towards tuition.
- Beyond the 4 consecutive semesters, you are not qualified for using it. That means if you have a summer semester within this 4 semesters period, and you do not select any course in the summer, you will end up using $2,500 for only three semesters with total of $7,500 scholarship, which means $2,500 tuition scholarship will not be used. The suggestion is select courses in summer.
2. **Academic Dishonesty Charge Record:**

3. **Student Success Stories: Internship, job offer, etc.**
