Number of adjunct faculty supervising clinical experience during this academic year (IHE staff)

2

Number of cooperating teachers/K-12 staff supervising clinical experience during this academic year

225

Number of students in supervised clinical experience during this academic year

203

Please provide any additional information about or descriptions of the supervised clinical experiences:

The number of students in supervised clinical field experiences includes students in internships, practicum courses, and courses in their teaching field. At least three courses are required (in most cases many more) with significant clinical supervised field experience. The number of hours required prior to internship varies by program but the average is approximately 180.

Enrollment and Program Completers

THIS PAGE INCLUDES:

>> [Enrollment and Program Completers](#)

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- >> [Teachers Prepared by Academic Major](#)

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2019-20.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

What are CIP Codes?

No teachers prepared in academic year 2019-20

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2019-20. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

Program Assurances

THIS PAGE INCLUDES:

>> [Program Assurances](#)

Respond to the following assurances. Note: Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. ([§205\(a\)\(1\)\(A\)\(iii\)](#); [§206\(b\)](#))

Program Assurances

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- Yes
 No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- Yes
 No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- Yes
 No
 Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- Yes
 No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- Yes
 No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- Yes
 No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- Yes
 No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

Our teacher candidates participate in numerous high-quality clinical experiences in diverse settings. We have continued developing close partnerships with our school systems that enable our teacher candidates to develop the knowledge, skills, and professional dispositions necessary to demonstrate positive impact on their P-12 students' learning. We have significantly refined our data management system in further support of these assurances. All of these assurances are integrated in courses and internship(s) and assessed throughout their program and at program completion.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

Report Progress on Last Year's Goal (2019-20)

1. Did your program prepare teachers in instruction of limited English proficient students in 2019-20?

If no, leave remaining questions for 2019-20 blank (or [clear responses already entered](#)).

- Yes
 No

2. Describe your goal.

3. Did your program meet the goal?

- Yes
 No

4. Description of strategies used to achieve goal, if applicable:

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

6. Provide any additional comments, exceptions and explanations below:

Review Current Year's Goal (2020-21)

7. Is your program preparing teachers in instruction of limited English proficient students in 2020-21? If no, leave the next question blank.

- Yes
 No

8. Describe your goal.

Set Next Year's Goal (2021-22)

9. Will your program prepare teachers in instruction of limited English proficient students in 2021-22? If no, leave the next question blank.

- Yes
 No

10. Describe your goal.

Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact Westat's Title II Support Center and your testing company representative.

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. ([§205\(a\)\(1\)\(F\)](#))

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction

Yes
 No

- b. use technology effectively to collect data to improve teaching and learning

Yes
 No

- c. use technology effectively to manage data to improve teaching and learning

Yes
 No

- d. use technology effectively to analyze data to improve teaching and learning

Yes
 No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

All traditional programs have been aligned with technology standards delineated by the ALSDE and include a course specifically designed to meet these technology standards. Students must design lessons using technology for instruction and assessment as a part of this course. Technology is infused throughout our traditional undergraduate programs so that strategies and methods are modeled. Methods courses, practicum and internship require candidates to utilize technology in their instructional planning and analysis of student learning. The curriculum and instruction classes are created from the perspective that teachers must design instruction considering multiple approaches to meet the needs of diverse learners. Assessment classes also address the use of technology for assisting teachers with monitoring the progress of all students and planning for improvement. Technology is a cross-cutting theme in CAEP and as such is seen throughout the program. Starting in 2019-2020, field experience is managed and assessed using technology exclusively.

Teacher Training

THIS PAGE INCLUDES:

>> [Teacher Training](#)

Provide the following information about your teacher preparation program.

(§205(a)(1)(G))

Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

Students in general education programs are taught a variety of methods and strategies for effectively teaching students with disabilities. Here are a few examples: teaching vocabulary strategies for better reading comprehension; reading intervention strategies; building lessons with particular mock students in mind; utilizing a universal design of learning; building lessons with students' individual needs at the forefront; how to prepare general education students for the addition of a child with special needs; the importance of classroom layout in order to show welcome and respect to the child as well as manage the classroom; placing an emphasis on ability vs. disability; how to build a network of stakeholders to assist the child; the importance of learning via professional readings to understand our role and responsibilities and better understand specific disabilities.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Students are taught that they will be a vital member of the IEP team for students with disabilities in their classroom and a variety of strategies are used to help them understand their role as they participate. For example, sample activities include providing sample scenarios for a team; creating sample scenarios of a child with physical, emotional, cognitive learning need; having actual special education teachers or specialists meet with students as an informational event; holding Zoom sessions with specialists at different schools

c. Effectively teach students who are limited English proficient.

Examples of instructional strategies taught to our general education students to address their future limited English proficiency students in the classroom are as follows: reading vocabulary strategies such as use of pictures, examples, non-examples, and characteristics to describe new words; the value of cognates; the role of code switching in classroom instruction; culturally relevant pedagogical practices; the use of partnerships with parents, teachers, schools, administrators, and community stakeholders; the relevance of household visits; funds of knowledge theoretical model; the adverse effects of deficit thinking paradigm; how to build a teaching community that acknowledges and values cultural diversity; the importance of including minority families in school decisions and in the growth of the school, and in the value and mission of the school; how to create or use free websites that allow teachers to submit online lessons with supplemental resources and links; the value of having periodic workshops in which minority populations can become mentors to other newly arrived culturally diverse parents and families; include activities to determine alternatives for students with limited English proficiency; and activities to determine available resources to assist with creating lessons with ELL students in mind.

2. Does your program prepare special education teachers?

- Yes
 No

If yes, provide a description of the activities that prepare *special education teachers* to:

a. Teach students with disabilities effectively

All special education programs have sequential coursework aligned with special education standards delineated by CEC and the ALSDE. In addition, methods courses, practicum and internship provide candidates multiple opportunities to collaboratively plan and reflect on lessons that address

students with disabilities. Council for Exceptional Children professional practice and ethical standards are addressed in each course to ensure teacher candidates are trained to teach students with disabilities effectively. High leverage practices in special education are incorporated into the coursework and integrated in multiple assignments such as a reading portfolio, mathematics portfolio, lesson planning, the use of differentiated instruction, behavior intervention plans. In addition, specific IRIS center modules that focus on inclusive practices are incorporated throughout the program. During practicums and internship (ESPE 4912, 4913, 4914, 4915, 4924/6924, 6914), teacher candidates have the opportunity to observe and practice evidence-based instructional and behavior management strategies.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Teacher candidates are initially taught to write entire IEPs through the use of case studies in multiple courses (ESPE 4200/6200, 4300/6300, 4040/6040, 4400/6400). Teacher candidates are provided practice with specific elements of an IEP (i.e., how to write standards-based IEP goals and benchmarks, how to interpret assessment data to develop annual goals and benchmarks, etc.). They also compose transition plans and plans for early childhood special education services. Teacher candidates explore the different types of assistive technology and related services for students with disabilities which must be included the IEP. Teacher candidates are taught collaboration skills necessary to participate as an IEP team member and other essential communication skills. During practicums and internship (ESPE 4912, 4913, 4914, 4915, 4924/6924, 6914), teacher candidates have the opportunity to participate in IEP meetings and/or reevaluation meetings. They also have opportunities to glean information from their students that they teach during practicums and internship.

c. Effectively teach students who are limited English proficient.

Teacher candidates learn about different types of diversity, including linguistic diversity, and effective strategies for teaching those populations in ESPE 3760 Survey of Exceptionalities or ESPE 6100 Students with Special Needs. Teacher candidates also complete IRIS Center modules related to diversity in ESPE 3760, 6100, and 6800. Special education teacher candidates complete a series of practicums and an internship that allow for the teaching of students with a wide range of abilities from birth to 12th grade.
