## Important notes:

1. Class schedules are usually available on the AUM website ([www.aum.edu](http://www.aum.edu)) at least a couple of weeks before registration begins.
2. Register for lab science courses *first* and then work other courses into your schedule.
3. **BEFORE** registration begins, check your “Registration Status” in Webster. Click on “Student Services,” then “Registration,” then scroll to the bottom of the page and click on “Check your Registration Status.” On this page you can view any holds on your account, your academic standing, and your student status (e.g. freshman, sophomore, junior, or senior).
4. Choose courses and set up a desired schedule *before* registration begins. Then on the day of registration you can just enter the CRN numbers (CRN = the 4-digit number **in blue** to the left of the subject on the “View Sections” screen) of your chosen courses and register for all of them at once.
5. If you consider dropping a course, **FIRST** check to see how your student account will be affected: financial aid (334)244-3571, campus housing, scholarships, athletic eligibility, insurance, etc. You may be required to **pay back** funds that were paid for that course if you drop it. **ALWAYS** check first!!!!
6. If you wish to drop a course to replace it with another one, it is *strongly* recommended you first check to see if there is a seat available in the section you wish to add before dropping a course you already have a seat in. If the course you are dropping has been boosted (over capacity), you will **NOT** be able to regain the seat you have lost.
7. Please read the messages on the Webster homepage about schedule changes and resultant fees. If you drop a course, it is *strongly* advised that you print a copy of the screen which shows the date you dropped, so that you have a record of the drop date if it ever comes into question.
