GEARSEF Project Score Sheet - Engineering

I. Research Problem: 10 points	
o Description of a practical need or problem to be solved	/3
o Definition of criteria for proposed solution	/3
o Explanation of constraints	/4
Research Problem Total:	/10
Comments:	
II. Design and Methodology: 15 points	
o Exploration of alternatives to answer need or problem	/5
o Identification of a solution	/5
o Development of a prototype/model	/5
Design and Methodology Total:	/15
Comments:	•
III. Execution: Construction and Testing: 20 points	
o Prototype demonstrates intended design	/6
o Prototype has been tested in multiple conditions/trials	/6
 Prototype demonstrates engineering skill and completeness 	/8
Execution Total:	/20

	tation: 35 points	
Poster (1	0 Points):	
•	Logical organization of material, how well does the physical display explain the project? (4 points)	
	Clarity of graphics and legends, how clearly are data and results presented? (3 points)	
	Supporting documentation displayed (3 points)	/10
Interviev	v (25 points):	,
•	Clear, concise, thoughtful responses to questions (4 points)	
•	Understanding of basic science relevant to project (4 points)	
•	Understanding interpretation and limitations of results and conclusions (4 points)	
•	Degree of independence in conducting project: If the work was performed in a	
	"mentor-rich" environment, does the student exhibit evidence of their independent	
	contributions to the work? (6 points)	
•	Recognition of potential impact in science, society and/or economics (3 points)	
	Quality of ideas for further research (4 points)	
•	For team projects only – deduct points for unequal contributions to and understanding	/25
	of project (up to 2 points)	-
	Presentation Total:	/35
