

College of Nursing and Health Sciences

AUBURN UNIVERSITY at MONTGOMERY
ONLINE Medical Laboratory Science
Application Instructions

Dear Applicant:

On the following pages you will find the application for admission to the AUM MLS **ONLINE** Option beginning Fall Semester 2025. Students interested in pursuing this option must first be admitted to AUM. An application for admissions to AUM can be found in the *Prospective Students* section at www.aum.edu/apply. Please refer to the *AUM Undergraduate Catalog* for procedures and requirements for admission to AUM. Transfer students must send official transcripts from all colleges/universities previously attended to the AUM Records Office at the time the application is submitted to AUM.

Once admitted to AUM, this application is to be used to apply for admission to the MLS **ONLINE** option. Part of this application process involves the applicant reading and reviewing the student handbook. The student handbook for the class beginning Fall Semester 2025 can be found in the *OnLine Section* of the Medical Laboratory Science web page at www.aum.edu/online-mls. The student handbook for the class beginning Fall Semester 2025 is version 23, March 2025. As you review this handbook, any questions should be directed to Kathryn Dugan, Program Director. I may be reached by phone at (334)244-3480 or by email at kdugan@aum.edu. After you review the student handbook, complete all parts of the application and return the completed application and other required information to the Program Director no later than the first Monday in July. The application may be mailed to the following address:

Kathryn Dugan
Auburn University Montgomery
MLS Program
P.O. Box 244023
Montgomery, AL 36124

Please remember to include the following along with this application.

- Verification of MLT/CLT Certification or Equivalent
- Resume of Clinical Facilitator
- Verification that you may receive molecular laboratory training at your clinical site
- Proof of Health Insurance

Please note that verification of national certification MUST accompany this application.

Employment/Clinical Experience Provider

Current Employer: _____

Years Employed by Current Employer: _____ Years in the Medical/Clinical Laboratory Field: _____

Has your current employer been approached about serving as a clinical site for your clinical experience?

___ Yes ___ No

Has your current employer agreed to serve as a clinical site for your clinical experience?

___ Yes ___ No

Once your employer has agreed to serve as a clinical site for your clinical experience, you must find someone who is willing to serve as the **clinical facilitator** for your clinical experience. Your clinical facilitator must be a board certified medical technologist/medical laboratory scientist with documented experience and continuing education in the clinical laboratory science field. This clinical facilitator will serve as a contact person between your facility and AUM. The clinical facilitator will **not** serve as a full-time clinical instructor, but should be available to answer questions, evaluate laboratory competencies, and give valuable assistance as needed. Provide the name and contact information for the person who has agreed to serve as your clinical facilitator. **A resume documenting the clinical facilitator's educational background, experience, and continuing education is required and must be submitted with this application.**

Name: _____ Title: _____

Employment/Clinical Experience Provider continued

Notes:

1. **AUM reserves the right to determine if the clinical facility is suitable for providing the required clinical experience.**
2. **The attached Employer Support Form Letter must be completed and included with the application.**

Track Selection

The **ONLINE** option in the AUM MLS Program may be completed following a two-year (six consecutive semesters) track or a three-year (nine consecutive semesters) track. Please select the track you intend to follow. Refer to the *MLS Student Handbook - **ONLINE** Option* for information regarding the two tracks available.

☐ Two-year track

☐ Three-year track

Health Verification

Accreditation standards require that all MLS students that participate in clinical experience provide documentation of health. These requirements are discussed in the *MLS Student Handbook - **ONLINE** Option*. As such, **the following information must be included with this application.**

1. **Proof of health insurance.** A scanned copy of the front and back of your insurance card will typically satisfy this requirement.
2. **Physical Examination.** A form is attached with this application which satisfies the physical examination requirement. Within this form is a place to document immunizations and TB skin test results. Please refer to the *MLS Student Handbook - **ONLINE** Option* for additional information.

Employer Support Letter

Prospective Student: _____

Facility Name: _____

Manager/Supervisor: _____

Phone/Fax/Email: _____

Address: _____

City/State/Zip: _____

Dear Employer:

The prospective student indicated above that is employed at your facility has expressed interest in participating in the AUM MLS **ONLINE** Program. This program allows certified medical/clinical laboratory technicians to complete a baccalaureate degree through an Internet-based learning format and become eligible for certification as a medical laboratory scientist.

The didactic component of this program will be delivered utilizing a self-study format allowing the student to study at their own pace and determine their own schedule. The student will take three courses per semester for six consecutive semesters (there is also a nine semester option available). While taking these courses online, the student will participate in clinical experiences related to their didactic courses. During the clinical experience, the student is expected to develop clinical competencies defined by AUM that are consistent with that of an entry-level medical technologist/clinical laboratory scientist. The clinical experience component of the program must be completed at the student's work facility. The required clinical competencies and a schedule of when these clinical competencies must be completed is provided in the *OnLine Section* of the Medical Laboratory Science web page at <https://www.aum.edu/online-mls>. The student will be responsible for making these competencies available to the clinical site.

To expedite the clinical experience, the student is required to identify a clinical facilitator. The clinical facilitator should be a certified medical technologist/clinical laboratory scientist that has the experience and continuing education sufficient to properly oversee the student's progress during their clinical experience. The clinical facilitator will **not** serve as a full-time clinical instructor. Instead, the clinical facilitator will serve as a contact person between AUM and this facility as it pertains to this student, will be available to answer questions, and give valuable assistance as needed.

As the student begins each new content area for which clinical experience is required, the student is to meet with the clinical facilitator to schedule the times for clinical experience. MLS Program accreditation guidelines require that clinical experience time be separate from regular work duties.

As part of the application process, each student is required to obtain a signed Employer Support Letter. This letter acknowledges the employer's support for the student's effort to advance their education and the employer's willingness to provide required clinical experiences. By agreeing to provide required clinical experiences, the facility also agrees to provide necessary information about the facility needed by the AUM MLS Program for accreditation purposes and to work with the AUM Program Director to establish an affiliation agreement between AUM and this facility for the duration of this student's clinical experience.
