### Alumni Survey Response: Fall 2024

The Alumni Survey is distributed each fall to program completers (Alumni) who earned degrees in the past three years, inclusive of individuals who earned initial or advanced certifications. One of the survey items purposefully asks if respondents are currently employed in a position for which they were prepared by their AUM degree. The following results are based on data collected through the Fall 2024 Alumni Survey:

***Are you currently employed in a position that uses your degree preparation?***

*Table: Percentage of Respondents Indicating “Yes” to Survey Question per Graduation Year and Program Type*

Graduation Year	Initial Programs	Advanced Programs
2022-2023	80%	100%
2023-2024	100%	63%

### **Intern Exit Interview Day**

Moving forward (as of May 2025), the report will also include the point of the application process (i.e., interviewed or offered a position) of the current class of initial program completers finishing their internships. This information will be collected during the final exit meeting of the internship.
